BIKEABILITY FOR YEAR 6

If you wish to find out more about Bikeability then please visit their handy website which contains lots of useful information about the course: www.bikeability.org.uk. This is an excellent course that ensures that children have the necessary skills to be safe out on the busy roads around the city and is good preparation for their secondary school transfer.

PROVISIONAL INFORMATION

As many of you know the transmission rate for COVID remains high in the Dogsthorpe area so we are continuing to be vigilant with our procedures in school around social distancing, hand hygiene and keeping the integrity of the bubble system for each individual class. Please do help us by following the HANDS – FACE - SPACE guidance from the government, especially when dropping off and collecting your children in the playground. We are committed to following our rigorous procedures and will be carefully monitoring the impact of schools and non-essential shops reopening. I do not foresee us changing our staggered start and finish times for the next 6 weeks and we will only be allowing school trips and visits once the government provides clear data that it is safe to so.

We are looking forward to summertime with warm sunny days ahead and as always thank you for your ongoing support.
