

ALL SAINTS' CHURCH OF ENGLAND PRIMARY SCHOOL

Administration of Medication Policy

"LOVING TO LEARN; LEARNING TO LOVE"

"A new command I give you, Love one another.
As I have loved you, so you must love one another."

John 13:34

Rationale:

Although regular school attendance is expected, if a child is ill they should remain at home until well enough to cope with the demands of the learning environment. Some children however who have a long term illness/physical condition may require medication to be administered in school.

The Governors and staff of All Saints' Primary School wish to ensure that pupils with medical needs receive the care and support in school that they need, subject to the guidelines outlined in this policy.

Aim:

To provide an appropriate, safe policy in relation to the administration of medicine in school following national and local educational guidelines.

In a partnership approach, to identify clearly the responsibilities of the school and parents/carers in respect of a child's medical need and the roles and responsibilities of staff who volunteer to administer medication in school.

To ensure that members of staff know that there is no legal responsibility for non-medical staff to administer medication or to supervise medical procedures.

To ensure that all staff know they must be adequately trained before undertaking this role.

Responsibility:

It is the decision of the Head Teacher as to whether school staff should be asked to administer medication during the child's formal education.

School staff are not trained or qualified to administer medicines and **the overall management of medical treatment for children is the responsibility of the parent/carer** and it is also their responsibility to provide the school with up to date information regarding their child's medical needs and to keep the school informed of any change.

Where agreement is reached that trained members of staff should administer medication, a consent form (see Appendix A) must be completed and signed by **both** the parent and the Head Teacher.

A child will require a Care Plan if they have complex medical needs/more than one prescribed medication/medical procedure. A Care Plan must be formulated in collaboration with parents and any relevant professional body ie Hospital and Community School Nurse/Paediatric Teams. An up to date Care Plan should be in place for a child with complex medical needs as outlined above **before** they are admitted to school and school staff are requested to administer medication.

It is the parent's/carers responsibility to ensure there is sufficient, in date medication in school. Medication must always be provided in its original container with the pharmacist's original label and clearly stating directions for use (see Appendix A).

Members of staff who administer medication in accordance with the school's policies and procedures are covered for insurance under the school's policy with the Local Authority.

Confidentiality

Information regarding a child's medical needs is kept in the medical room. While it is essential for staff to be fully acquainted with individual medical needs, this information must only be shared with relevant members of staff.

Short term antibiotic medication

Where possible, GPs will prescribe antibiotic medication in such a way that it can be given outside school hours. If antibiotic medication has been prescribed 4 times a day, and the child is well enough to benefit from lessons, parent/carers are asked to come into school at lunchtime, to administer the second dose of the day.

Other prescribed medication

Some children require anti-histamine medication to be held in school for administration as required during the school day. This medication must be clearly labelled with the child's name and stored in the medical

room. Two members of staff must be present whenever this is administered and both must sign the medication log. The child's parent must be telephoned straightaway to notify them that medication has been administered and the time of administration.

Over the counter medication

Over the counter medicines are regarded as non-essential and **will not** be administered in school in line with Local Authority guidelines. This also applies to homeopathic medicines.

Infectious diseases

Children who have an infectious childhood illness may return to school after the period in which they may pass the infection to other children and staff has elapsed.

Training

To ensure the well-being of the child and to safeguard staff, specific training should be given by a suitably qualified person, to all those who volunteer and before they are required to administer medication or undertake a medical procedure. It is important that lunchtime supervisors are included in any training in order for them to be able to recognise an emergency situation and respond appropriately.

Training should be updated as advised by medical directives in collaboration with School Health.

Storage of medicines

All medication must be stored securely, in a cool place; any requiring refrigeration must be isolated from other items i.e. food.

All emergency medication must be easily accessible as identified in the Care Plan and the whereabouts known to the child and all staff.

Disposal and return of medication

Medication is only kept in school whilst the child is in attendance. **It is the parent's/carers responsibility to replace medication which has been used or has expired.** Parents/carers are requested to collect all medication at the end of each academic year and to return it as required at the start of the next academic year. Any medication not collected at the end of the academic year will be returned to a pharmacy for disposal.

Where disposal of sharp items i.e. needles is required, the appropriate safety measures must be followed as identified in the child's Care Plan.

Self-Administration

Where the child is recognised by a qualified person (ie parent/carer or medical staff) as being competent to self-administer, e.g. using an asthma inhaler, it will be specified on the 'My Asthma Plan' For all other medication see Appendix A.

School Trips/Off Site Activities

Each member of staff leading a group of children on an off-site activity, will carry a medical first aid kit equipped with basic medical equipment, Accident Slips and a list of any children who have a medical condition and /or Care Plan. A child on an off-site activity who has been prescribed emergency medication **must have a named trained person on the activity who will ensure that such medication accompanies the child at all times and is returned to the designated storage are in the school.**

Class teacher's/group leaders will each take a mobile phone plus an accident record book and emergency procedures card.

Record Keeping

If a medicine is administered by staff, there **must always be a witness present**, the date and time must be recorded, signed by the administrator and the witness and the parent informed straightaway. See Appendix B.

Any reason why a medication is not given must also be recorded. Staff must not force a child to accept medication but must record any refusal to do so and inform the parents as soon as possible.

When a child requires an individual Care Plan this is in collaboration with parents, staff and the relevant health professional i.e. School Nurse, Consultant, GP, Specialist Nurse.

Emergency Situations

The list of qualified First Aiders is displayed in the medical room. Staff must never take any child to hospital in a car, it is safer to call an ambulance. Health professionals are responsible for any decisions on medical treatment in the absence of a parent/carer.

In the absence of a parent/carer and at the discretion of the Head Teacher, a member of staff if available, may accompany the child to hospital and stay until the parent/carer arrives.

Any medical information including contact details should be taken with the child or given to emergency staff.

Emergency Medication

Specific guidelines are in place for emergency medication within a child's individual Care Plan. A copy of this Care Plan plus a photograph is stored in the folder in the medical room; parents also have a copy.

Additional Information:

Anaphylaxis

Catering staff will be informed regarding any child who has a food allergy or anaphylaxis. A photograph and associated dietary requirements are displayed in the school kitchen. This information must be kept up to date at all times.

Emergency adrenaline auto-injector pens are kept in the first aid room and can be used with guidance from the paramedics and if the child's own pen fails to work.

Asthma

The school has adopted the "National Asthma Campaign's School Asthma Policy". Some children, particularly younger ones, may need to use a spacer with their inhaler and be supervised in its use. We also hold emergency inhalers in the first aid room which can be used if required as long as we have permission from parents.

Diabetes

Staff will be offered support and training including that involved with blood glucose monitoring and administration or supervised self-administration of insulin if required. Only trained staff can administer Insulin to a child.

Epilepsy

Emergency medication can be prescribed for the treatment of convulsions in which case a Care Plan will be in place.

Appendices:

- A parental consent to administer medication in school
- B Record of Administration of Medication
- C My Asthma plan

ALL SAINTS' CHURCH OF ENGLAND PRIMARY SCHOOL
INDIVIDUAL HEALTHCARE PLAN
& CONSENT FOR THE ADMINISTRATION OF MEDICATION IN SCHOOL

The school will not give your child any medication unless you complete and sign this form and the Head Teacher has confirmed that school staff have agreed to administer the medication and, where necessary, have received the appropriate training.

	CHILD'S FULL NAME	M/F
	DATE OF BIRTH	CLASS
	ADDRESS	
	EMERGENCY CONTACT DETAILS: PARENT'S NAME	
	PARENT'S CONTACT NUMBER	
	ALTERNATIVE EMERGENCY CONTACT NO :	

THIS CHILD HAS THE FOLLOWING CONDITION OR ILLNESS:

SYMPTOMS:

ACTION TO BE TAKEN IN THE EVENT OF AN EMERGENCY/TREATMENT:

NAME OF MEDICATION AND ANY SIDE EFFECTS
This must be supplied in the original container from the pharmacy and with the original dispensing label intact showing dosage etc.

DOSAGE AND AMOUNT
As on the container from the pharmacy

METHOD AND TIMING FOR MEDICATION

SPECIAL STORAGE INSTRUCTIONS/PRECAUTIONS

ACTION TO BE TAKEN IF CHILD REFUSES MEDICATION

GP'S NAME, SURGERY AND TELEPHONE NUMBER

- ✓ I will ensure that the school always has adequate supplies of the medication/equipment listed above.
- ✓ I will ensure that the medication/equipment supplied by me and prescribed by my child's doctor is correctly labelled, in date, with storage details attached and that I will inform the school of any changes.
- ✓ I will collect all medications from the school at the end of each academic year.
- ✓ I understand that the medication/procedure will be carried out by a member of staff who has received appropriate training.
